

ACCESS TO RECREATION FOR ALL!

WWW.ACCESSREC.COM

OUR PHILOSOPHY

At ACCESSREC, everything we do **begins with people**, the communities we serve, the families we support, and the individuals who rely on us to experience the outdoors with dignity, ease, and independence.

Our mission goes beyond accessibility. It's about **empowering freedom of movement**, creating welcoming spaces, and delivering products that make a real difference in people's lives. Whether it's a wheelchair user navigating a beach path or a park staff member setting up an accessible event, our goal is to make that experience seamless, safe, and uplifting.

We believe **everyone deserves access** without compromise. That's why we prioritize our customers above all else. From your first inquiry to your 100th use, your needs drive our innovation, your feedback shapes our improvements, and your satisfaction is our measure of success.

We focus on **reliability, ease, and comfort**. Our products are designed to be strong and stable, yet simple to install and remove. They're built to last, but even more importantly, they're built to serve. Every mat, panel, and chair we offer is developed with care, from thoughtful design and responsible manufacturing to real-world testing in the environments that matter most.

ACCESSREC isn't just a company. It's a promise.

A promise to stand by our users, listen to our partners, and lead with heart.

Let's build a more accessible world together.

BEACH & PARK ACCESS FOR ALL!

There's nothing quite like a day at the beach: Sunshine on your shoulders, a salty breeze in the air, and laughter carried on the waves. These are the moments everyone deserves to enjoy. That's why we create accessibility solutions that bring people of all abilities closer to the water and all the fun that comes with it.

Our **ACCESSDECK® USA** and **ACCESSMAT®**, **COCOPATH®**, **GRASSMAT®**, **MR. BOARDWALK®**, **MUSTMOVE®** or **WETMAT®** surfaces make it easy to move across sand, grass, and other challenging ground.

TERRAWHEELS®, our all-terrain wheelchair, and **ACCESSWALK®**, our all-terrain rollator, let people of all abilities explore the outdoors, while **WATERWHEELS®**, our floating beach wheelchair, makes time in the surf safe and unforgettable.

At **ACCESSREC**, we believe that nature should be open to everyone. If you have a unique location or need not covered here, we'd love to hear from you. We hope this catalog inspires new ideas, opens new possibilities, and most of all brings a little more joy to your world.

NON-WOVEN POLYESTER ROLL OUT MAT

Whether you're with a hotel, resort, city, county, national or state park, nonprofit organization, or simply someone who wants to make the beach more welcoming, ACCESSMAT® is the perfect solution.

Designed to meet the accessibility standards of both the Americans with Disabilities Act and the Architectural Barriers Act, ACCESSMAT® helps create safe, easy pathways for people of all abilities to enjoy the beach. It's a simple, meaningful way to show your commitment to inclusion and to make every visit a little more memorable.

ACCESSMAT® BEACH ACCESSIBILITY MATS ARE DESIGNED TO MAKE OUTDOOR SPACES, ESPECIALLY BEACHES, EASIER FOR EVERYONE TO ENJOY.

Whether you need a permanent path or a temporary access route, ACCESSMAT® offers a simple, portable solution that rolls out quickly and works beautifully for people using wheelchairs, walking aids, strollers, or just bare feet.

It's durable, easy to install, and ideal for sandy environments where access matters most.

SMART DESIGN, SEAMLESS INTEGRATION

ACCESSMAT® doesn't just perform well, it looks great too. Its thoughtfully chosen colors offer both function and visual appeal. The blue option provides high visibility, making access routes easier to spot for those with visual impairments. The brown and tan option blends naturally into outdoor settings like parks and beaches for a more subtle look. Available in widths of 3', 5', 6', or 10' and lengths of 25', 33', 50', or 100', ACCESSMAT® offers flexible sizing to suit your space, whether you're planning a temporary event or creating a permanent pathway.

BETTER ACCESS, BETTER VALUE

Proudly designed and made in the USA, ACCESSMAT® offers one of the most cost-effective ways to create a reliable beach access route. Starting at just \$8 per square foot, it delivers exceptional value without sacrificing performance. Unlike many competitors whose products require frequent replacements, complex installation, or high maintenance costs, ACCESSMAT® is built for long-term use with minimal upkeep. It's an economically beneficial solution that saves time, effort, and money, while ensuring high-quality access for all.

COMFORT FIRST, SAFETY ALWAYS

ACCESSMAT® is designed with people in mind, especially those barefoot on the sand. Its soft, non-woven polyester surface stays cooler under the sun, making it far more comfortable to walk on during hot summer days. No sharp edges, no harsh seams, just a smooth, gentle surface that's kind to bare feet and hands. ACCESSMAT® also provides a safer grip for all users, including children, seniors, and those using mobility devices, and because its edges don't require extra finishing, there's less risk of cuts during setup or takedown. It's all about easy, safe access, no stress, and no worries.

FAST SETUP, EASY CARE

ACCESSMAT® is designed to make your life easier. Two people can roll out a 5' x 100' section in under 10 minutes, no heavy equipment needed. When it's time for cleanup, maintenance is minimal. Just sweep, blow, or rinse with a pressure washer. Thanks to its water-permeable structure, sand naturally sifts through, keeping the surface clear and ready to use.

SUSTAINABLE MATERIALS, MINIMAL IMPACT

ACCESSMAT® is designed with sustainability in mind. Made from Recycled UV-stabilized polyester, it is fully recyclable after use, helping to reduce environmental impact. It can be installed and removed easily in accordance with environmental regulations, making it a responsible choice for protecting the natural beauty of beaches and outdoor spaces.

TOUGH BUILD, LIGHT FEEL

ACCESSMAT® is built to last. Its edges won't fray, and the surface resists wear and tear with regular use and proper care. Thanks to its strong yet lightweight construction, it's easy to carry, weighing just 0.455 lbs per square foot, and can be handled by one or two people with ease.

The non-woven polyester material offers the best of both worlds: strength and flexibility. It stays firm over soft sand while gently adapting to uneven terrain. And when the season ends, simply roll it up and store it, no fuss, no buildup. Unlike some competitor products, sand won't get trapped underneath, so your mat stays just as light as the day you first laid it down.

ACCESSMAT® is backed by a 5-year warranty, giving you long-term confidence with every installation.

CONNECTOR & HARDWARE SYSTEM

Our heavy-duty connectors are designed to stay secure under tension, ensuring a reliable connection between mats. To link two mats, simply insert our innovative plugs into the connector holes for a smooth, seamless join. The entire system is 100% barrier-free and fully ADA compliant, offering safe and accessible transitions for all users.

GROUND ACCESSIBILITY & MOBILITY MAT

BUILT TO PERFORM. READY FOR ANYTHING.

Our trademarked solution, ACCESSDECK®USA, is a high-strength, non-slip panel system proudly made in the USA. Engineered for both leisure and heavy-duty use, it supports everything from pedestrian traffic to maintenance and utility vehicles. Whether you're protecting ground surfaces for an event or creating a stable pathway in challenging environments, ACCESSDECK®USA delivers dependable performance you can count on.

TWO SIDES. BUILT FOR FLEXIBILITY.

One of the standout features of ACCESSDECK®USA is its reversible design. Each panel has a unique tread pattern molded into both sides to suit different needs. One side features a wheelchair and pedestrian-friendly non-slip surface, offering safe, comfortable access, even for light vehicles. The other side provides a rigid, heavy-duty tread that adds extra ground grip, perfect for larger vehicles like ATVs and maintenance equipment.

Whether you're planning for people, equipment, or both, **ACCESSDECK®USA** is ready for the job.

PROVEN DURABILITY. WEATHER READY.

ACCESSDECK®USA is made from high-density polyethylene (HDPE), a material known for its impressive strength-to-weight ratio. It provides a solid, stable surface with excellent traction, ideal for a wide range of recreational and functional uses. Engineered for the outdoors, its UV protection, weather resistance, and chemical durability help it withstand harsh elements without cracking or breaking down over time.

EASY TO MOVE. SIMPLE TO STORE.

ACCESSDECK®USA is designed for convenience. Its panel sizes are compact and manageable, with standard dimensions that fit easily in the bed of most pickup trucks. Installation and removal are quick and tool-free, requiring just two people to complete the job. The space-saving design also makes storage and shipping more efficient, helping reduce overall handling costs.

NATURAL TONES. COASTAL COMFORT.

ACCESSDECK®USA comes in light blue or light tan, two colors designed to complement outdoor environments while remaining visually effective. The tan option blends effortlessly into sand and natural landscapes, while the blue option stands out for improved visibility. These lighter tones also absorb less heat, making them more comfortable for barefoot users in sunny conditions. Both colors coordinate seamlessly with our ACCESSMAT® systems, available in matching shades of blue or tan, for a clean, unified look across your entire accessible pathway.

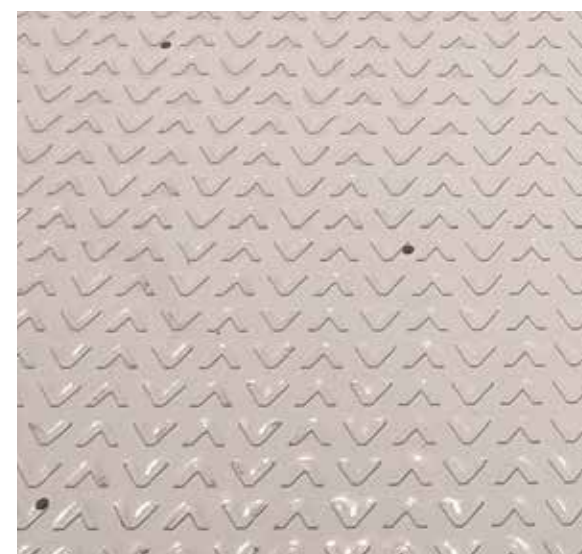

FLEXIBLE CONNECTIONS FOR ANY SETUP

Each ACCESSDECK®USA panel features four corner connection holes and six additional attachment points, allowing for a wide range of layout options.

Whether you're creating a straight path, a platform, or a custom formation, these connection points make it easy to build a configuration that fits your exact needs.

PRODUCT SPECIFICATIONS

- Standard panel weight:
Approximately 63 or 79 lb. (28 or 35 kg)
- Dimensions: 4 ft x 6 ft or 5 ft x 6 ft
- Thickness: 0.5 in (12.7 mm)
- Supports loads up to 20 tons
(depending on ground conditions)
- 10 connection holes for flexible layout options
- Backed by a 6-year warranty

ADVANTAGES OF HDPE MATERIALS

- Will not warp, rot, crack, or delaminate
- Resistant to extreme temperatures
- Easy to clean and low maintenance
- Anti-slip tread patterns
- Comfortable for those walking barefoot

BEACH & GROUND ACCESSIBILITY MADE SIMPLE

YOUR NATURAL PATH TO ACCESSIBILITY

COCOPATH® was thoughtfully created to make outdoor spaces more welcoming, inclusive, and easier to navigate. Crafted from 100% natural coconut fibers (coir), this eco-friendly matting system offers a smooth and stable path over soft or uneven ground like sand, grass, mulch, gravel, or even snow.

Whether you're planning a beach wedding, organizing a park event, or simply looking to create a safer, more accessible path at home or work, COCOPATH® fits right in thanks to its light brown color that blends seamlessly with natural surroundings while offering real comfort where it's needed.

LIGHTWEIGHT, ROLLABLE, AND EASY TO HANDLE, COCOPATH® IS JUST AS PRACTICAL AS IT IS SUSTAINABLE.

IT'S A SMART SOLUTION FOR ANYONE WHO WANTS TO CREATE TEMPORARY OR LONG-TERM ACCESS WITHOUT LEAVING A MARK ON NATURE.

WITH COCOPATH®, ACCESSIBILITY FEELS EFFORTLESS AND INVITING FOR EVERYONE.

LIGHTWEIGHT & TRAVEL READY

COCOPATH® is made to move with you. Weighing just 0.40 lbs per square foot, this mat is lightweight, easy to handle, and a breeze to roll out or pack up. From setting up for an event to making a beach path more accessible, or even creating a safer walkway at home, COCOPATH® keeps things simple. No special tools, no complicated setup, just unroll and go. And when it's time to store or transport, it fits neatly into compact spaces, ready for your next adventure. It's convenience without compromise.

SAFE, DEPENDABLE & RELIABLE

COCOPATH® is designed to help everyone feel secure. Its slip-resistant surface provides strong traction, even on soft or wet ground like sand, grass, gravel, or mulch. This helps reduce the risk of slips and trips, giving users peace of mind with every step. Each mat is carefully finished with durable cotton-stitched edges that keep it from fraying and hold its shape through repeated use. Thanks to its low-profile design and strong grip, it stays in place and offers a stable platform that ensures security, stability, and peace of mind for all users.

QUALITY YOU CAN COUNT ON

COCOPATH® stands out for combining quality, durability, and affordability in one natural matting solution. Designed for daily use in real outdoor conditions, it holds up against sun, saltwater, and heavy foot traffic without breaking down like many synthetic alternatives. It's a trusted choice for those who want a surface that performs season after season.

**AVAILABLE IN WIDTHS OF:
3.28' OR 6.56'**

**AVAILABLE IN LENGTHS OF:
32.8', 50', 65.6', or 98.4',**

**COCOPATH® can also
be custom-cut to
meet your needs
(minimum length of 10').**

**STARTING AT JUST \$3.97
PER SQUARE FOOT**

**COCOPATH® offers
unmatched value for those
looking to create accessible,
natural-looking walkways
that don't compromise on
reliability or appearance.**

GRASS MOBILITY MADE SIMPLE

GRASSMAT® is a durable, roll-out matting system designed to protect and stabilize grassy or soft ground surfaces like sand, soil, snow, mulch, and woodchips. Installed directly over existing terrain, it offers a fast and cost-effective way to create reinforced surfaces for events, wheelchair and pedestrian paths.

ITS UNIQUE OSCILLATED MESH STRUCTURE IMPROVES TRACTION AND SLIP RESISTANCE BY UP TO 97% COMPARED TO STANDARD MESH, PROVIDING A SAFER, MORE RELIABLE SURFACE FOR BOTH PEOPLE AND VEHICLES. GRASSMAT® ALSO ALLOWS GRASS TO GROW THROUGH THE OPENINGS, BLENDING NATURALLY INTO THE ENVIRONMENT AND BECOMING NEARLY INVISIBLE WITHIN A WEEK.

WHERE GRASSMAT® WORKS BEST

- Pedestrian and wheelchair-accessible paths (ADA/ABA compliant)
- Walkways for school, college, and university ceremonies and events
- Nature and forest trails
- Temporary detour routes at construction sites
- Pathways and parking on residential front lawns
- Temporary or permanent walkways for outdoor events and venues

WHY CHOOSE GRASSMAT®

Looking for a ground protection solution that's safe, strong, and easy to install? GRASSMAT® is ideal for a variety of temporary or permanent applications.

- Quick and cost effective to install
- No digging or soil removal needed
- Slip-resistant for added safety
- Grass grows through the mesh for a natural look
- High load-bearing capacity supports up to 8 tons per axle
- Protects and reinforces high-traffic outdoor surfaces

WHETHER YOU'RE PLANNING A FIELD EVENT, IMPROVING ACCESSIBILITY, OR PROTECTING A HIGH-TRAFFIC LAWN, GRASSMAT® HELPS KEEP YOUR GROUND HEALTHY WHILE OFFERING A SAFER, MORE STABLE SURFACE FOR EVERYONE.

AVAILABLE SIZES:

ROLLS OF
3.28' or 6.56' WIDE
32.8' or 65.6' LONG
(CUSTOM LENGTHS AVAILABLE)

GRASSMAT® is manufactured from recycled, UV-stabilized HDPE and is fully recyclable, containing a minimum of 20% recycled polymer.

FLOATING BEACH WHEELCHAIR

ENJOY THE WATER WITH FAMILY AND FRIENDS

WATERWHEELS® makes it easy for wheelchair users to join in on the fun and enjoy the outdoors to the fullest. With floatable armrests and large wheels, it smoothly moves from the beach right into the water. Whether you're relaxing in the ocean or floating in a pool, WATERWHEELS® lets you soak up the sun, splash around, and make lasting memories with the people you love.

COMFORT THAT GOES WHERE YOU GO

WATERWHEELS® is designed for anyone looking to enjoy the outdoors with more comfort and ease. With a supportive, reclinable seat and a stable, floatable design, it moves smoothly across sand and into the water. Whether you're at the beach, lake, or pool, WATERWHEELS® helps make more places feel welcoming, and more moments relaxing, fun, and accessible to all.

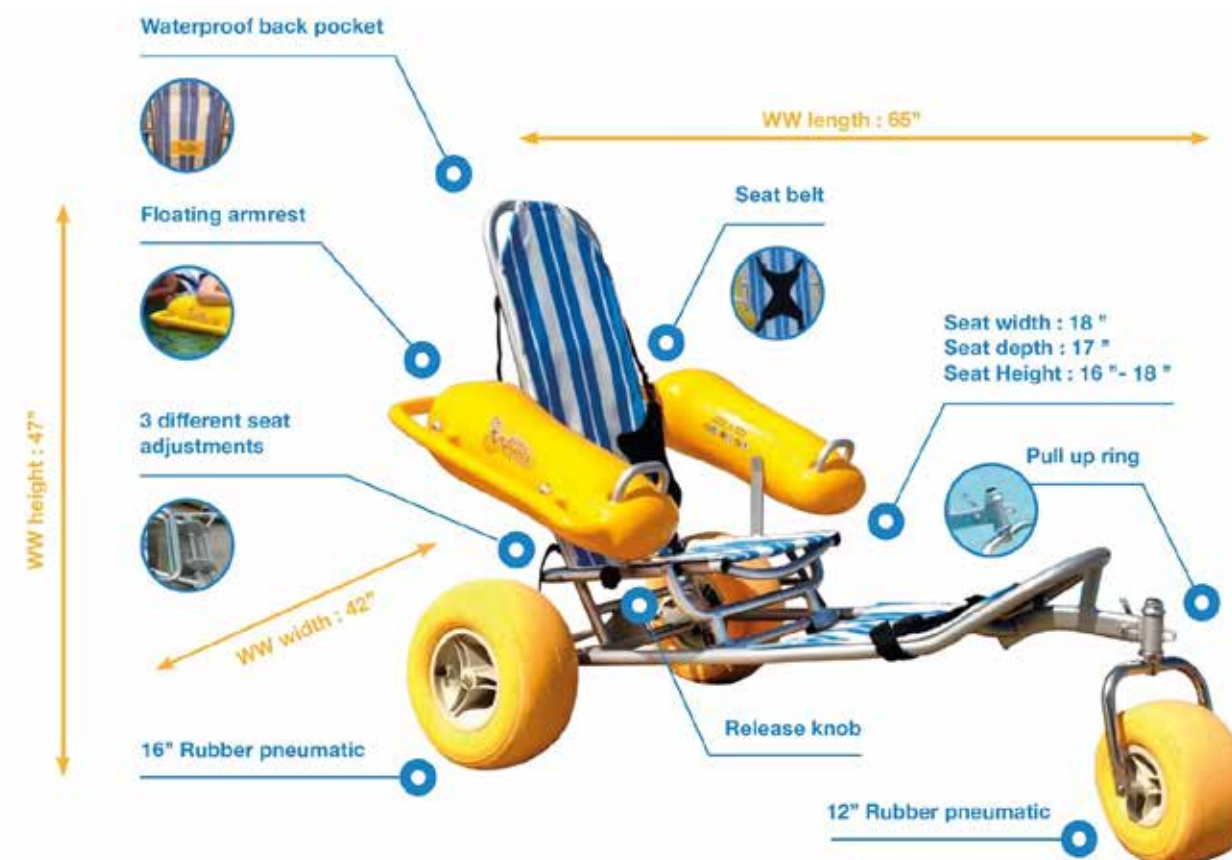

RECLINE AND ROLL WITH EASE

WATERWHEELS® features a three-wheeled design with a comfortable, ergonomic seat that keeps users in a relaxed, reclined position. The seat offers three adjustable positions: One for easy transfers into the chair, and two reclining options for comfort on land or while floating. Adjustments are simple with a quick pull of the chain on the back, so you can enjoy the ride and the water without hassle.

QUICK SETUP AND EASY STORAGE

WATERWHEELS® is made up of just six parts: The frame, two armrests, and three large wheels, making it quick and easy to assemble or take apart in just minutes. No tools needed! The wheelchair also folds down for easy transport in most vehicles and compact storage between adventures. Wherever the day takes you, WATERWHEELS® is ready to roll!

ALL-TERRAIN WHEELCHAIR FOR ALL SURFACES

YOUR GO-ANYWHERE CHAIR

TERRAWHEELS® is an all-terrain wheelchair built to make movement across challenging surfaces easier and safer. Unlike standard wheelchairs, it's built to navigate places where mobility is often a challenge, such as beaches, parks, pools, trails, turf, gravel, and snow. Whether you're navigating new terrain or simply spending time outdoors, TERRAWHEELS® helps you get there with confidence.

*"The most versatile & sturdiest
All-terrain wheelchair, built to explore and
easy on your budget."*

EXPERIENCE THE OUTDOORS, TOGETHER

At ACCESSREC, we created TERRAWHEELS® with a simple goal: to help more people enjoy the outdoors without limits. Whether you're exploring a park, rolling along a trail, or spending time with loved ones, TERRAWHEELS® is designed to support you every step of the way. With a focus on freedom and accessibility, we've made sure every detail helps you enjoy the outdoors at your pace, on your terms.

STRENGTH MEETS SUPPORT

TERRAWHEELS® is made with durable aluminum and stainless steel, paired with reliable rubber wheels for a smoother ride. The two rear swivel wheels make it easier to move across a variety of surfaces, while built-in brakes keep the chair safe and steady when not in motion. With three reclining positions, a spacious seat, and a supportive footrest, TERRAWHEELS® is designed to help users feel confident, secure, and comfortable wherever they go.

FOLDABLE AND TRAVEL FRIENDLY

TERRAWHEELS® folds easily for quick transport and compact storage, making it simple to take wherever your day leads. It also assembles and disassembles in minutes, no tools needed.

WHY PEOPLE LOVE TERRAWHEELS®

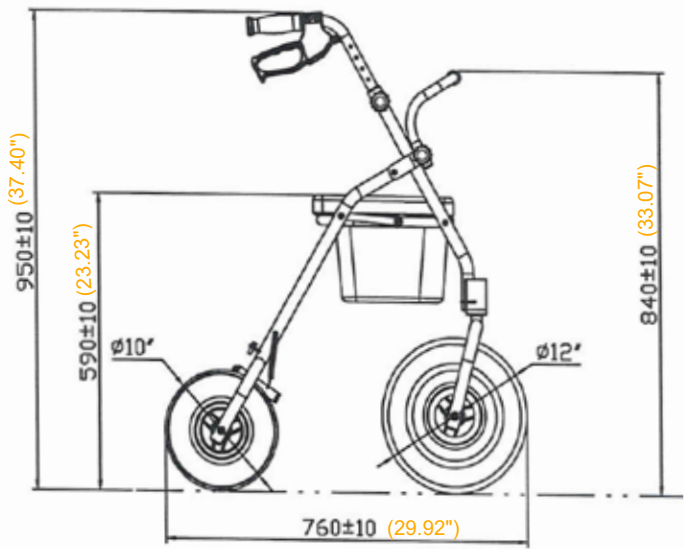

- Front-wheel brake system for added safety
- Durable rubber wheels that are easy to repair (unlike PVC)
- Colorful, eye-catching fabric and armrests with a spacious back pocket
- Supports up to 300 lb
- Reclining and folding back seat for flexibility and convenience
- Wide seating frame for added comfort and room
- Easy to push and maneuver over tough terrain and uneven surfaces (Note: It could be challenging pushing someone over 150 lb over soft sand)
- Adjustable frame and beach wheels to fit your needs

FITS THROUGH ALL STANDARD DOOR OPENINGS!

FREEDOM TO MOVE WITH CONFIDENCE

The ACCESSWALK® Beach Rollator was thoughtfully designed to help you stay active and independent wherever life takes you. Built with large, durable wheels that grip soft surfaces like sand, this rollator glides smoothly along the shore or across a park trail. Its lightweight aluminum frame is easy to handle, yet sturdy enough to offer dependable support.

When it's time to take a break, the comfortable built-in seat and adjustable handles let you rest and relax in comfort. With an intuitive braking system for added control, the ACCESSWALK® makes every outing feel safe and effortless.

ENJOY MORE OF THE OUTDOORS

The ACCESSWALK® Rollator is designed to help you stay active and connected to the places you love. From soft sand to grassy parks and uneven trails, it gives you steady support on terrain where standard walkers fall short. Its durable frame provides extra stability, while still folding up for easy transport and storage. Though it's built tough, it comfortably fits through ADA-compliant doorways. With the ACCESSWALK®, getting outside feels simple, empowering, and enjoyable, just the way it should be.

RUGGED MOBILITY MADE SIMPLE

When tough terrain stands in the way, MUSTMOVE® is ready to roll. This innovative roll-out matting system is designed to create instant access over sand, mud, gravel, and other unstable surfaces. With options available for light, medium, and heavy-duty use, MUSTMOVE® adapts to a wide variety of environments, from establishing secure pedestrian routes and temporary tent flooring to launching boats or supporting aircraft recovery. This mat delivers dependable performance in even the most demanding environments.

It's 9.5-foot wide and 32.8-foot long coverage makes it perfect for both foot and vehicle traffic, while the roll-out design ensures it's quick to deploy when time is of the essence. Whether used on a beach, construction zone, or military site, MUSTMOVE® helps users move safely and efficiently, wherever the job takes them.

Product	Kit P/N	No. Rolls	Roll Ø inch.	Weight lbs. (lb/ft)	Roll Dimensions	
					Width ft.	Length ft.
Mustmove® Trackway & Beach Access - Light Duty	MMOSACNRR19001	1	9	143 (0.43)	9.5	32.8

BUILT TOUGH FOR DEMANDING ENVIRONMENTS

MUSTMOVE® is engineered for performance in the most challenging conditions. Each mat features a double-ply, rubber-coated fabric reinforced with internal composite rods, delivering strength and flexibility where it's needed most. The non-slip surface ensures safe footing and traction, even on slick or shifting ground. Despite its rugged build, MUSTMOVE® remains impressively compact, rolling up to just 9 inches for easy transport and storage. Setup is quick, cleanup is simple, and sections connect seamlessly with a modular design that works with existing deployment systems. It's also repairable, giving it a longer life expectancy and reducing replacement costs. From temporary access roads to mission-ready installations, MUSTMOVE® is trusted to perform under pressure.

KEEP SAND OFF PATHWAYS, ROADS, PROPERTIES, AND BUILDINGS

PROTECTING PATHWAYS & PRESERVING DUNES

ACCESSREC® Sand Fence is designed to make a big difference in coastal areas. By creating a barrier against wind and drifting sand, it helps protect walkways, roads, nearby properties, and buildings. At the same time, it plays a vital role in rebuilding and preserving dunes, an essential part of maintaining healthy shorelines. Easy to install and built to perform, this simple system helps trap sand where it belongs and keeps outdoor spaces cleaner, safer, and more sustainable for everyone.

SMART DESIGN. STRONG RESULTS.

The ACCESSREC® Sand Fence is built for simplicity and strength. Made in the USA with non-woven, non-fraying fabric, each fence is lightweight, just 0.05 lbs per square foot, yet tough enough to handle the elements. It comes neatly packed in a compact 13" x 13" bag and unrolls to 50 feet long and 3 feet high, making setup quick and easy. No trenching is needed thanks to its bottom flap design, and reinforced edges help it stay in place through changing weather. With reusable materials, low maintenance needs, and a 1-year warranty, it's a reliable solution you can count on season after season.

WE ARE ALSO PROUD TO OFFER

PVC CHAIRS

Our four chairs are made of durable PVC construction and non-corrosive wheels, offering a lightweight and affordable mobility solution for enjoying the beach with ease.

HIPPOCAMPE

A high-end aluminum and stainless steel mobility chair designed for beach, pool, and all-terrain use, versatile, comfortable, and ready for any outdoor adventure.

MR. BOARDWALK

A durable, splinter-free rollout pathway made from Trex® composite or Teak hardwood, designed to meet ADA standards and blend beautifully into beach and outdoor landscapes.

SEATRAC BY TOBEA

A solar-powered, mobile seat system with remote control access that offers safe, independent sea entry for people with reduced mobility, ideal for tidal beaches and eco-conscious installations.

WETMAT

A versatile, slip-resistant matting system available in three models: WETMAT® I for general outdoor use, WETMAT® II for barefoot and aquatic areas, and WETMAT® III for heavy-duty stability, each designed to enhance safety, drainage, and comfort across a wide range of environments.

OUR HISTORY - 65 YEARS OF EXPERIENCE

ACCESSREC LLC is a proud American family-owned business, founded in Clifton, NJ by Sebastien Ragon, his wife Kristen, and John Rafanello. Inspired by Sebastien and Kristen's shared passion for leisure and recreation as a path to healthy living, they launched ACCESSREC LLC with a clear mission: to provide safe, effective access to outdoor activities for people of all abilities.

From ground accessibility mats to all-terrain wheelchairs, ACCESSREC LLC offers a wide range of solutions that promote inclusion and independence in recreational settings. We invite you to join the ACCESSREC community and let us help make your spaces more accessible for everyone!

**WITH OVER 10,000 REFERENCES WORLDWIDE,
ACCESSREC® IS THE LEADER
IN THE OUTDOOR ACCESSIBILITY INDUSTRY**

ABOUT THE OWNERS

SEBASTIEN RAGON

Sebastien has over two decades of experience in the water-based access industry. His expertise spans negotiations and collaborations with city officials, park managers, government agencies, nonprofits, and individuals, successfully managing projects ranging from \$1,000 to \$3.5 million.

Known for his ethical and solutions-driven approach, Sebastien is a trusted partner to distributors, agents, contractors, and government clients alike. His innovative mindset has led to the development and improvement of accessibility products both nationally and internationally. He has contributed his insight at U.S. Access Board hearings and participated with the American Shore & Beach Preservation Association in shaping ADA beach access guidelines. His expertise and sensitivity have helped define the standards that now ensure access to beaches for all.

Committed to staying ahead in the industry, Sebastien actively participates in conferences and trainings such as the ADA Symposium, NRPA, and ASBPA. He is hands-on with product demonstrations and installations, valuing face-to-face time with clients to understand their current and future needs.

Sebastien's dedication to accessibility deepened after experiencing his own rehabilitation journey following a stroke in 2013. That personal challenge reaffirmed his and his wife Kristen's commitment to therapeutic recreation and inclusive design. Together, they are proud parents of three beautiful boys, and Sebastien embraces his role as a devoted soccer dad. He credits his recovery to perseverance, hard work, and Kristen's unwavering support, a partnership that remains at the heart of ACCESSREC LLC's mission and success.

Sebastien Ragon currently serves on the RESNA ATSC Ground and Floor Surfaces Committee, where he helps develop national standards for accessible surfacing. His appointment reflects ACCESSREC's leadership and commitment to advancing ADA-compliant solutions at the national level.

JOHN RAFANELLO NEW JERSEY WIRE CLOTH COMPANY INC.

John brings extensive experience in the polyester matting industry, having taken over his family business, NJWC, which was originally founded in 1959. Since then, he has partnered with Sebastien to manufacture ACCESSMAT® recognized as the world's leading ADA-compliant beach access mat. John is known for his exceptional customer service and takes great pride in delivering high-quality products.
